Deliberative/Pre-Decisional—Not for Public Disclosure

I understand the general concern and I share it. However, we need to get this done. Here's a revised version of the ASK of the State that I have put together based on what staff have essentially done to date. The major difference is that I have put in a milestone when the State needs to deliver the program, be it voluntary or regulatory, to address the CZARA shortfall. For all areas, the deadline I've used is end of calendar year 2015. It seems to me that if the State can give us a new program submittal by then, we could review and propose an approval and avoid imposition of penalties. So, the idea is to ensure that we give the State deadline that tracks with the deferral of penalties.

I think we have what we need to work with but I need your help to refine it. The two documents that I think we use to put together the draft that we would share with the state are attached. I will be working on them this morning to come up with a version that includes some greater specificity on milestone which I will then want you all, particularly Allison (and NMFS contact), Alan and Jenny, to quickly look at and let me know if it meets our needs/expectations.

Things are moving very quickly now and we need to get this done ASAP. I can fill you in more completely on our call tomorrow.
